TOWN OF MOULTONBORO

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Moultonboro:

The past year has been a notable one for the schools of Moultonboro. When the district voted to erect a new building at the village it took a long step toward providing suitable school conditions for its children.

The appropriation was not large enough to do a really complete job, but there is a tremendous improvement over the old conditions.

The building will be open for inspection on the day of the district meeting and all voters should visit and see with their own eyes exactly what has been accomplished and what needs to be done. Please note especially the almost ideal seating and lighting arrangements.

Moultonboro citizens with or without children are interested I am sure in the welfare of the schools. They certainly are willing for their children to have at least as good opportunities for education as the average of the state. The difficulty of course is that so few have an opportunity of visiting other schools that most people fail to realize the full need of improvement.

There are many in town who do not understand the arrangement at Center Harbor. There is a two-room school building in Center Harbor belonging to the Center Harbor School District. Both Center Harbor and Moultonboro children attend this school which is graded as is the one at Moultonboro Village. Moultonboro furnishes the teacher, books and supplies for the lower grades and Center Harbor cares for the upper grades. Moultonboro pays rent while Center Harbor looks out for repairs, seating, blackboards, etc. This

TOWN OF MOULTONBORO

year nearly \$1,000 was spent by Center Harbor to enlarge and improve the lower grade room.

The Committee had a difficult problem to solve in providing schooling to those living on Moultonboro Neck.

It was finally decided to close the Green's Corner School and open the one at the lower end of the Neck. This school house needed considerable repairs, but as the children are mostly in the lower grades the school will probably be in use for several years. It is necessary to furnish transportation for some of the pupils from near the middle school house on the Neck to the lower school.

This school house at the Middle Neck was shingled during the summer. It is in good condition otherwise, but would have quickly gone to pieces without this care.

The old school house at Center Harbor was sold by the school committee acting under the authority given it by the district.

TOWN OF MOULTONBORO

There are several facts brought out by this table that the citizens should know. The average membership total shows that there were 23 more pupils on an average in the Moultonboro schools in 1925-26 than there were in 1924-25.

The Ambrose School has been two years without a case of tardiness.

The schools were in session more days.

The percentage of attendance in all but the Moultonboro Village Primary School was a little below the state average of 94.

The tardiness record at the Greens Corner School was very poor and that in the upper grades at the village not as good as it should have been, though there was an improvement over the previous year.

TOWN OF MOULTONBORO

To the citizens of the Moultonboro School District, the Building Committee (so called) submit the following report.

As early as the ground would permit the committee met jointly with the school board and the superintendent, and from the lots available unanimously selected the present location, and from three sets of plans considered, chose the only one which was adapted to the location or might be built within the appropriation. As soon as possible the plans and specifications were provided for all who would consider bidding. Three bids were received, one from Mr. Bickford of Rochester, N. H., for some over \$9,000, one from Mr. Leighton of Center Harbor for \$7,502, and one from Mr. Sleeper of Laconia, for \$6,278. These bids did not include toilets or blackboards, as it had not been decided what would be best. All bids being more than the appropriation, they were rejected.

The State Superintendent of school buildings, Mr. Pringle, a man of wide experience, was invited to a meeting, and from his suggestions a new floor plan was made which would reduce the size of the building a little, and was better in several ways than the first one. The specifications were rewritten and every expense possible eliminated. The basement was reduced to 20 feet and a few other small savings made possible. Bids were asked for the second time. It became generally known that the appropriation was only \$6,000, and many would not bid, saying it could not be done for that amount of money. We received only two bids, one from Mr. Bickford for some over \$8,000, and one from Mr. Sleeper for \$5,675, both bids not including toilets or blackboards.

TOWN OF MOULTONBORO

Mr. Sleeper was selected as the lowest bidder, and after substituting wood shingles reducing the overhang, Mr. Sleeper was given the contract for \$5,520. This left \$480 for toilets and 120 square feet of blackboard.

After careful investigation chemical closets were found to be not altogether satisfactory, and their cost would be more money than we had. That water should be brought to the building was considered to be of great importance, so the flush closets were adopted of a frost-proof type. Mr. Sleeper was verbally given the contract of bringing the water from a well 300 feet, installing four closets with the necessary soil pipe and cesspool, a faucet in the kitchen and 120 feet of artificial slate blackboard in the classrooms for the balance \$480.

The building is 56 feet long by 30 feet wide, and the basement is 20x30. There are two classrooms 22x27, and 12 feet to the ceiling. These are the dimensions required for 30 pupils. There are four toilet rooms, two coat rooms, a kitchen with water, sink and shelves, and a store room. Light being the first consideration in any school house, it was necessary to put the windows in the back of the building.

We consider the building well built, and the workmanship and material good.

On account of false impressions which seem to exist, a report of some detail seems called for.

PERCY KELLEY,
I. A. MOULTON,
HENRY A. BOYLE.
